Summary and Recommendations

Key Points

This survey was to investigate attendance rates, role and function of the Health and Wellbeing Partnership (HWP). It was issued to 37 members in January 2019. The key findings include:

- The survey was completed by 23 respondents (62%).
- Four meetings took place in 2018 and the average attendance at each meeting was 9.5 people.
- 15 respondents also attended at least one local Health and Wellbeing Network (HWN) meeting.
- Six respondents did not attend the HWP or the HWN.
- The majority of respondents (16 of 23) covered all of Argyll and Bute as opposed to a specific area.
- The vast majority of respondent (21 of 23), considered there to be a need for strategic level meetings for health and wellbeing in Argyll and Bute. When asked to categorise this role, the majority (18) identified leadership for health and wellbeing as the key function of a strategic group.
- 14 respondents are also involved with the Community Planning Partnership, of these 7 are involved in Outcome 5 to improve health and wellbeing in the people of Argyll and Bute.
- Respondents were asked to rate the importance of the HWP on a scale of 1 to 10. An average response of 7.9 was given.

Next Steps

An evaluation of the HWP was prompted by low attendance rates at meetings during 2018. This report provides the findings of a survey to investigate the value existing partners place on HWP. A high number of responders identified the need for strategic leadership for health and wellbeing in Argyll and Bute, yet a small proportion of members attend each meeting. This survey is one element of a wider review of the strategic direction for health and wellbeing. Further actions include:

- This report will be shared with HWP members and various stakeholders such as area wide and local community planning structures.
- Investigate the views of the Community Planning Partnership Management Committee members on strategic leadership for health and wellbeing.
- Investigate how Area Community Planning Groups can inform health and wellbeing priorities and contribute to their delivery. A survey is being presented at the May 2019 round of area meetings.

- In an increasingly complex policy arena, investigate what priorities should form the delivery plan for Outcome 5. A working group will convene in May 2019.

Background

What is the Health and Wellbeing Partnership

The Health and Wellbeing Partnership (HWP) is a strategic partnership of Argyll and Bute's Community Planning Partnership (CCP), which is chaired by Alison McGrory, Health Improvement Principal in Argyll and Bute Health and Social Care Partnership (HSCP). HWP was established in 2012 following a comprehensive review of the strategic leadership of health improvement in 2011.

The remit of HWP is to provide leadership and direction for improving the health of the people who live and work in Argyll and Bute. HWP also leads the delivery of Outcome 5 "People live active, healthier and independent lives" for the CPP. The integration of these two agendas took place in January 2018.

Who are the members

The membership of HWP is determined by a Terms of Reference last updated in 2017. The email distribution list of members which is used to communicate details of meetings includes 37 names. Their employing organisation is listed in Table 1.

The Survey

The survey was sent out to HWP members on 17th January 2018 and closed on 5th February. A total of 23 of the 37 members (62%) completed the survey. A copy of the survey questions are provided in Appendix 1.

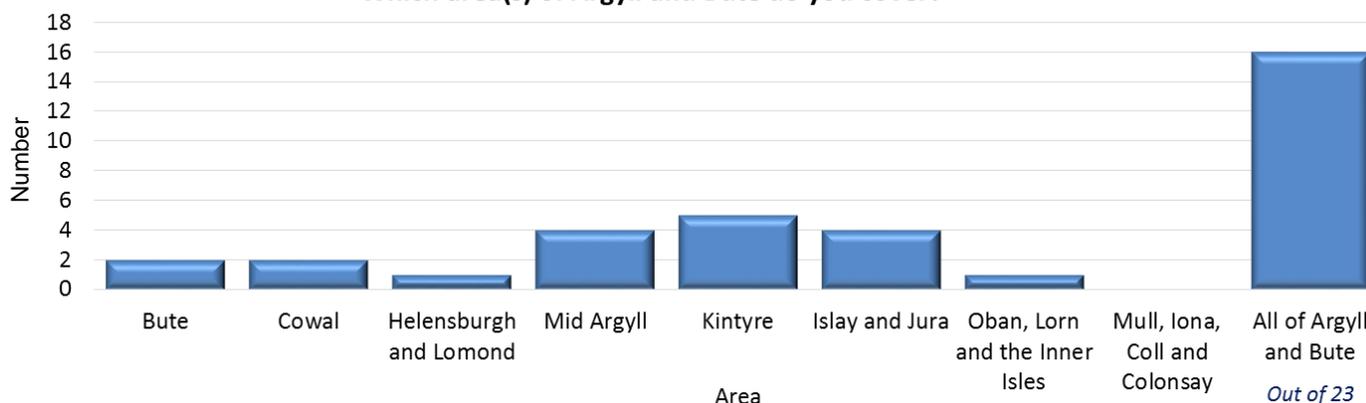

Background on responding members

The largest group of 15 respondents were from the Public Sector (65%), with 4 from both the Voluntary and Third Sectors. There were responses from members covering each of the 8 local areas of Argyll and Bute with one exception (Mull, Iona, Coll and Colonsay). 16 members reported they cover Argyll and Bute as a whole.

Respondents' background

Which area(s) of Argyll and Bute do you cover?

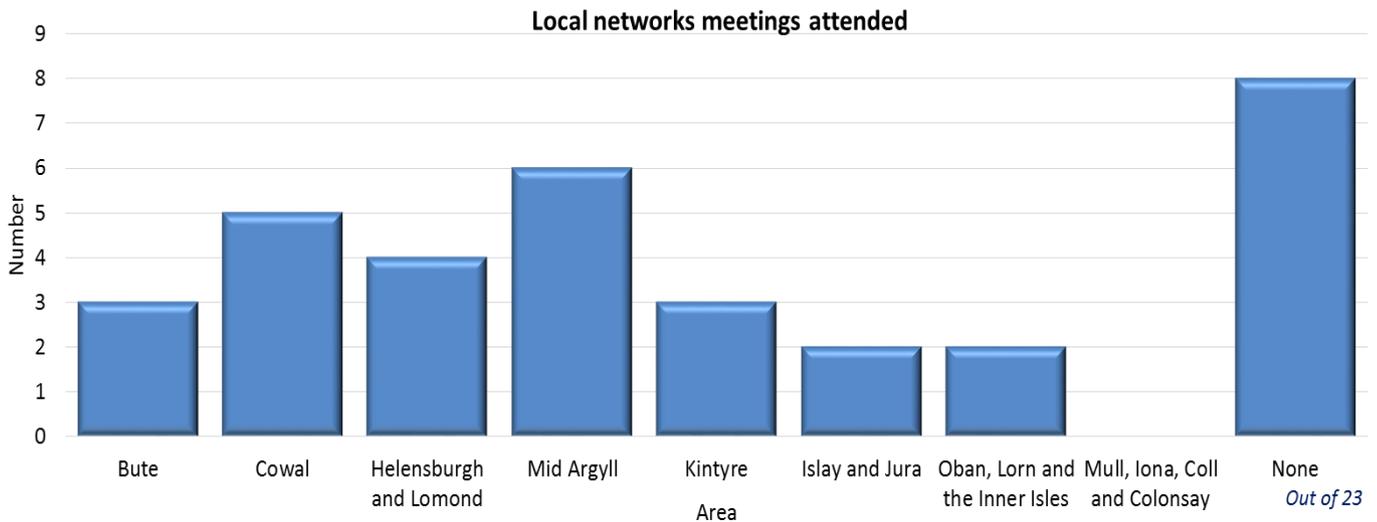

Attendance at the Health and Wellbeing Partnership

Of the 23 to respond, only one person had attended all four meetings during 2018. 30% had not attended any meetings, and 57% had attended between one and three meetings. 15 people commented that they were unable to attend as they had limited capacity or the meeting clashed with others of a higher priority to them. One person commented that they were sharing attendance with others in their department due to operational considerations. Two people reported they did not attend as they had been advised not to or their professional role had no material overlap with health and wellbeing. One member commented that they had only been invited to one meeting.

Attendance at the Local Health and Wellbeing Networks

There are eight local Health and Wellbeing Networks (HWN), all of which hold regular meetings. Respondents were asked if they attended these meetings and which ones they attended.

8 people stated that they did not attend any of the local HWN meetings; of these 8 people 6 had also not attended any of the HWP meetings.

The need for a Strategic level meeting for health and wellbeing

The majority of respondent 78% (21 of 23), considered there to be a need for strategic level meetings for health and wellbeing. Of these respondents, 18 considered this role to be to lead health and wellbeing activity in Argyll and Bute, one person considered the role being to monitor health and wellbeing activity in Argyll and Bute and one person considered the function to be for networking. One person answered unsure to this question.

Community Planning Partnership Involvement

61% of respondents confirmed that they are also involved with the CPP. A number reported involvement in the 6 Outcome groups, seven of whom were involved in Outcome 5. Seven people also reported involvement in the local area Community Planning Groups. (NB more than 1 option could be selected).

Rating the importance and value of the Health and Wellbeing Partnership

The survey asked respondents to rate the importance of the HWP for partnership working on a scale of 0 to 10 (with 10 being most important). Overall the 23 respondent gave a rating of 7.9 out of 10. Respondents who did not attend any meetings placed a lower level of importance on the HWP, whereas those who attended all of the meetings gave an average score of 9.

The 23 respondents gave an average rating of 6.7 out of 10 for how important the HWP is for their work. Those that did not attend any HWP meetings give an average score of 5 and those that attended some of the meetings gave an average of 9.

This section included an open response box to allow people to state what they valued from attending the HWP. 19 of the 23 respondents completed this question: 53% stated that what they valued most was the information they received at the meetings, *“A chance to promote areas of my work and learn about what partners are doing in their work”* and *“Partnership working and a better understanding of the bigger picture, as well as being able to highlight what we are currently working on and the barriers”*. 37% valued the chance for networking, *“Connectivity with community and NHS colleagues highly valued”*. 11% valued the chance to raise the profile and inform others about what they are working on. Two respondents provided negative responses to this question, *“Less now than previously - now very little”*.
